IN MAILROOM TECHNOLOGY

The *Easimailer* from PFE is the perfect solution for those organisations seeking a desktop inserting system which is flexible and simple to use and yet robust enough to cope with the rigours of use in a busy office or mailroom. The two feed stations are capable of handling many different types of stationery, and producing professional mailings in many variations.

With a memory capable of holding up to twelve different jobs, combined with PFE's EasiStart operating system, jobs can be up and running in a few seconds and producing filled envelopes at up to 1,200 per hour.

Whether you need to mail financial documents such as invoices or statements, or whether you wish to send marketing campaigns, the Easimailer will save you time and money, whilst presenting a professional image of your organisation.

Technical Specifications

- 2 automatic feed stations, with Nest, Collate and Fold Separately Modes
- Multiple feed options from both stations
- Handles paper from 60 - 110 gsm
- Inserts booklets up to 1 mm thick
- Fully automatic fold and envelope settings
- 'Daily Post' function for hand feed items (station 2 only)
- 12 User programmable job memories
- Cycles at up to 1,200 envelopes per hour
- Simple push-button operation
- Advanced double document calibration
- High Capacity desk-top envelope catcher tray

OPTIONS

- On-line Franker link
- 'Daily Post' function for hand feed items (station 1)

DIMENSIONS

Width: 416mm (16 3/8") Height: 579mm (22 3/4")
 Length: 627mm (24 3/4") excluding catch tray
 Weight: 46kg

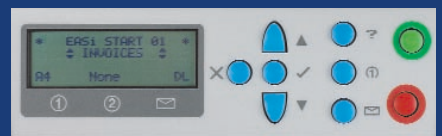

High Capacity Sheet Feeder

For consistent output the *Easimailer* is fitted with a high capacity Sheet Feeder which is capable of holding up to 250 sheets. This significantly minimises the amount of refills required when processing your mailing.

Easy Access

In case of a mis-feed, the clam shell design allows you to gain unrivalled access to the entire paper path. The operator interface will even tell you where to look. The document can then be cleared and the machine re-started immediately.

Easistart

The control panel and LCD display make programming and running jobs easy. For each job the display shows which type of document to load in each hopper. Then simply press the green button to start.
